

Are You Tired of Government Corruption, Government Oppression and an Unconstitutional Judicial System?

Most people are fed up with the way our government and judicial system are being run, the Constitution means nothing to them.

Our legislators and the people that run our cities and towns are stealing our money, taking bribes, giving no bid contracts and raising taxes all at the same time.

Several groups have been formed in order to put a stop to the government corruption. A few of those groups are:

Tea Party Movement

The County Grand jury

Restore America Plan

County Assemblies

American Grand Jury

Grassroots of America

Educate yourself and learn the truth about who is running America and about the fraud has that been perpetuated against the American people for the last 200 years, and see who is working against the American people.
